

## Board of Management meeting 27/09/2023

### Agreed Report

- Child Safeguarding and Risk Assessment reviews were carried out and ratified. Notice has been sent to the Parents Association and the Bishop's office.
- Anti-bullying policy was reviewed and ratified in line with best practice
- The school has a new bike shelter which can hold 20 bikes at a time. This is a great new addition and we hope to see many pupils taking their bikes to school in the spring and summer months.
- The Board of Management discussed the possibility of updating the school tracksuit to a more modern fit. Companies will be contacted and parents will be surveyed to gather opinions on the matter.
